

Heat Seal Perfection Made Easy

TOP FIVE REASONS TO BUY

The Optimum Sealing System

Because T.O.S.S. Technology is Unique.

The controller monitors the resistance of the Alloy 20 Heatseal Bands and responds in milliseconds to assure precision temperature control without thermocouples.

Because T.O.S.S. is Consistently Accurate.

Designed for your application, T.O.S.S. Technology provides flawless repeatability versus the inherent inconsistencies of thermocouple controls.

Because T.O.S.S. is easy to install.

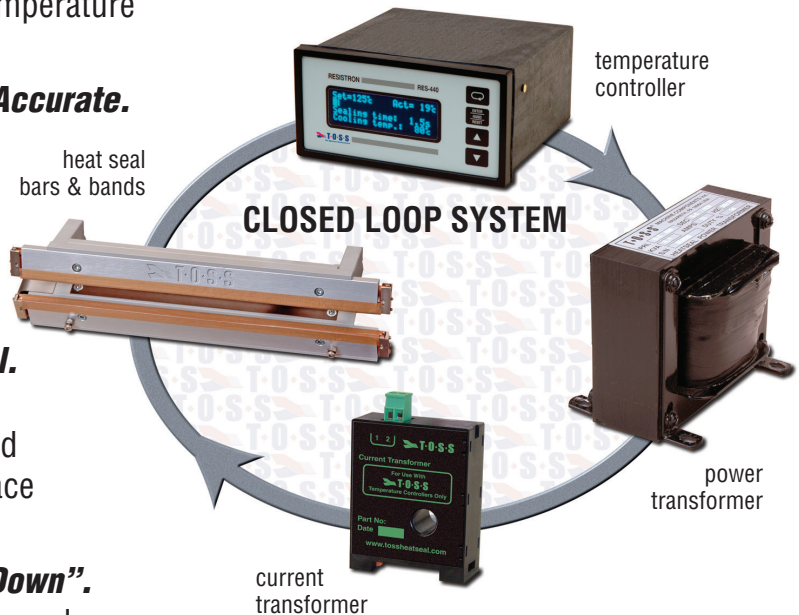

Either "Panel" or "Cabinet" mount, T.O.S.S. is "Plug and Play" designed to operate independently or interface with PLC controls.

Because T.O.S.S. controls "Cool Down".

Seals are formed during the cooling cycle and T.O.S.S. controls the cooling to assure perfectly repeatable seals.

Because everyone wants Happy Customers!

Only T.O.S.S. provides the assurance of "Perfect Seals Every Time".

Perfect Seals... Every Time
